

Allergy Testing Results by Phone

In an effort to save our patients time and money, we are now offering Allergy (RAST) testing results by phone. Patients will receive a phone call at their main contact number informing them that their test results are available. You will be given a toll free number to call and instructed to enter a “PIN” number. **Your “PIN” is your date of birth in an eight (8) digit format** (i.e. August 3, 1964 would be entered as 08031964). After entering your PIN, you will hear a recorded message from a member of our staff giving you the results of your test plus any instructions regarding treatment and follow-up appointments.

If you do not wish to participate in the phone result program, please let our staff know prior to leaving the office after your blood is drawn. The purpose of this program is to cut down on unnecessary office visits and co-pays for our patients. Certainly, if you feel more comfortable going over your test results in person, we will be more than happy to schedule an appointment for this purpose.
